English around the World

People use words to express their ideas, intentions, emotions and information. Currently, the words that people use are often English words. The English language has more than 500.000 words. Most of these words are very unusual: we almost never use them. Some words that English speakers use are taken from different languages. For example:

- Avocado, Barbecue and Totem come from indigenous American language.
- Jungle and Yoga are of Indian origin.
- Kangaroo comes from an aboriginal Australian word.
- Ketchup is Chinese.
- Color is Latin.

Besides, other languages take some words from English too, for instance: Basketball, Tennis, Play Station, Chat, O.K., Bye.

Actually, you do not need to travel to USA or UK to learn English because English is Everywhere.

Eduardo: Oh! That's a good idea! I am going to do a list of my pending activities.

6

Hace exposiciones breves sobre un tema académico relacionado con su entorno escolar o su comunidad y tiene en cuenta: hechos relevantes, detalles concretos y vocabulario específico. Para esto, se ha preparado previamente y se ha asesorado con sus compañeros y profesor. Por ejemplo:

Good morning! My purpose today is to talk about language. Language is the ability to acquire and use the system of communication. There are about 5.000 to 7.000 languages in the world. When we communicate, we can use words, symbols, gestures, movements, or images. It means that language can be verbal (words: spoken or written) and symbolic (images, gestures, movements, symbols). In order to prevent Chikungunya, I will follow these recommendations: First, I will empty or cover containers such as buckets, dustbins and flower pots in my yard. By doing so, I can assure that mosquitoes don't breed in my house. Second, I will apply mosquito repellent on my arms and legs because the fragrance of the repellent will keep them away. Third, I will sleep under a mosquito net when necessary so they don't bite me at night. Chikungunya is preventable. It is always better to be cautious rather than getting this disease. Sometimes if it is not treated on time it may even lead to other health complications.

2

Reconoce relaciones de causa y efecto en lecturas cortas sobre temas académicos. Para esto, tiene en cuenta el vocabulario, los conectores y sus conocimientos previos. Por ejemplo, después de leer un texto corto, puede identificar las causas y efectos y representarlos a través de un gráfico.

ENDANGERED SPECIES

Endangered species are those plants and animals that are in danger of extinction. There are degrees of endangerment: critically endangered, threatened species, and rare species. Extinction is a very normal process in the evolution of animals and plants. The causes can be related to survival, climate, and human intervention. Survival relates to how an animal can live and reproduce in an environment. If the conditions become unlivable, then the species will become extinct. When climate changes occur, less rain for example, a species may not be able to adapt well enough to that new habitat. Human intervention includes chemical pollution, destruction of habitats, or exploitation of plants and animals for food and other products.

3

Resume la información que ha leído o escuchado sobre temas relacionados con su entorno escolar y académico a través de escritos estructurados. Por ejemplo, al leer un texto, lo resume en una oración.

The Right to Health

All individuals are entitled to a minimum standard of health. The right to health has been included in documents such as the Universal Declaration of Human Rights, the International Covenant on Economic, Social and Cultural Rights and the Convention on the Rights of Persons with Disabilities. However, the right to health is interpreted and applied in different ways in every country depending on certain conditions such as the definition, the minimum rights that are included, and the institutions that are responsible for ensuring this right.

All people have the right to health as established in the Universal Declaration of Human Rights, but how the right is interpreted and applied depends on the conditions of every country.

Breve síntesis de las ideas más importantes. **Elaboración de recursos didácticos** (carteleros, presentaciones digitales, etc.). **Manejo de la expresión oral:** uso de tecnicismos, pronunciación, énfasis en palabras claves, buen tono de voz, citar fuentes.

Good morning! Today, I am going to talk about Equality Right. Expresa su opinión sobre un tema discutido en clase y relacionado con su entorno académico. Para esto, cita lo que han dicho sus compañeros, otras personas o fuentes de información. Por ejemplo:

Blanca: Accepting differences helps us live in harmony.

Paola: I agree with you. However, there are a lot of people in our country who don't accept differences. The Colombian Constitution states that "Colombia has ethnic, cultural, linguistic and religious diversity" but most of us don't respect the characteristics of others.

Blanca: As Mr. Rodríguez said in class, we have to start in our homes and classrooms. We need to set some rules among us to recognize the other.

Paola: Actually, in our class we have agreed to not bully people who use piercings and tattoos. The reason for this is that for some piercings and tattoos are related to drug addiction. So, bullying is not allowed in our class.

Blanca: Excellent idea! We have to start with things like these actions.

6

Intercambia información sobre temas del entorno escolar y de interés general en una conversación. Para esto, se basa en los apuntes tomados después de leer o escuchar información sobre el tema tratado. Por ejemplo:

Susi: In this video, we can see that the number of pregnant teenagers has increased. The government has developed many campaigns but this situation continues.

Por ejemplo, después de ver un video sobre el manejo seguro de las redes sociales, escribe un texto sobre recomendaciones para publicarlo en el periódico escolar.

Tech News

Safe Social Networking

Facebook, Instagram, Snapchat, and Twitter are among the most frequently used social networks. These sites expand rapidly. Young people use social networks to communicate among them. However, the use of these networks has its risks.

First, people can be vulnerable when they publish their locations and what they are doing all the time. People you do not know can get your personal information easily. They can harm you. I suggest that people avoid doing this.

Second, once your pictures go into cyberspace, they always remain. Pictures can be used to bully you or your family. People should not post pictures that others can use against them. Choose your photos carefully.

Finally, to keep social networking safe, everyone must do their part. Do not give too much information about you and don't post inappropriate photos.

7

Identifica el propósito, las partes y tipo de textos en una lectura o audio cortos y los comparte con sus compañeros.

Para eso, se apoya en la estructura del texto, los títulos y subtítulos, marcadores de secuencia, conectores y el vocabulario que se repite. Por ejemplo, después de leer un texto expositivo sobre las netiquetas, el estudiante puede explicarle a sus compañeros de qué se trata.

"The text I read was about netiquette. It had a short introduction where they define the word "netiquette" and then they present some rules to use when we post messages in the different media. At the end, the author says that following netiquette rules is important to have effective communication."

Letter to the editor: Tattoos.

Dear editor,

I do not understand what is happening with young people these days!! More and more often I see them with tattoos on their arms, their legs, and some on their necks. This younger generation does not know the risks of tattooing. There is the risk of long-term effects of illnesses and infections that could be created by dirty needles. Besides it is very painful to remove the tattoo if they change their mind. Anyway, I will never let my children get a tattoo!

"In this article, the writer says that tattoos are bad for young people because they do not understand the risks. She thinks tattoos are not good and will never let her children get one".

Protect your children from advertising

By Healthy Kids Foundation

Being a child today is very different from what it was ten or fifteen years ago. Children see thousands of advertisements on TV, on the Internet, and all around them daily. As a parent, you can help your children face "the dangers" of advertising by talking and explaining to them what advertisers do and what their intentions are. Children need to understand that advertisers will always try to make them buy something because that is their job. They will always try to present things creatively so children end up desiring the products that companies advertise.

Finally, as a parent, you can help your children learn the differences between commercial advertising messages and other types of media messages that are produced with educational, entertaining, or informative purposes.

"I can understand from this discussion that parents have the responsibility to guide their children and let them see how advertisers can trick them"... "I also understand that not all advertisements have the same intention, and it is important to differentiate among the types."

3

Intercambia opiniones sobre situaciones de interés personal, escolar o social. Para esto, presenta sus opiniones de manera natural y coherente y hace uso de expresiones conocidas. Por ejemplo, participa en una mesa redonda dando opiniones sobre el tema en discusión.

Juan: "Today we are going to talk about nature conservation, more specifically about Parque Tayrona. The question is: Should we open this natural park to tourism investment?"

Diana: "Well, first, I want to say that we have to be careful with nature. When we destroy nature, we destroy our own life."

Carlos: "That is true! When we cut down trees, for example, we create problems with the production of oxygen in the planet and also with the erosion of the soil."

David: "I understand what you all mean, but investing in the country is also important. If we open the park to tourism investment, more people will have jobs, and families will have more places to go and spend their time together."

Diana: "I think that more jobs and more places to visit aren't important. As I said if we destroy nature, we destroy our own life..."

Hi, Michael. How are you?

Hi, Erica. I'm fine. How are you?

I'm doing well. Hey! Did you watch the news last night? Nevado del Ruiz is melting! Can you imagine that?

Oh my God! It's terrible! I went there two years ago with my family, and it's an awesome place. Is there any plan to recover it?

They didn't say, but I don't think so because people don't help.

I hope somebody does something about it.

Me too. Hey! I'm running late to class. I'll see you later.

Ok. Bye.

Responde preguntas e inquietudes después de hacer una exposición oral sobre temas generales o académicos de interés. Para esto, se basa en la información consultada y organizada. Por ejemplo, aclara las dudas de una audiencia acerca de un tema como el siguiente:

How do earthquakes happen?

"An Earthquake is the shaking of the earth by the unexpected movement of rocks below its surface. This surface, called crust, is made of tectonic plates. These plates are independent blocks of rock. They 'crash' or move against each other and produce changes in the earth's topography. The areas where these changes happen are called fault lines..."

Q1: "What does topography mean?"

Answer: "Topography is the detailed description of an area"

Q2: "Are earthquakes predictable?"

Answer: "Earthquakes are hard to predict. The exact day, time and place of an earthquake cannot be anticipated. Scientists are trying to do it, but it is difficult."

What happened yesterday...

Heavy rain made the rivers overflow. Although the city does not have a formal evacuation plan, people have created an informal emergency system. There are alarms in every neighborhood and local leaders activated them when they realized there was a flood.

Consequently, people escaped the flood by running to the mountains. For this reason, many lives were saved and there were no injuries. In conclusion, having an emergency system could be the difference between life and death.

Animal Abuse

Animals are living beings just like humans. They cannot talk, but they have feelings just as humans do. When we abuse them, they feel pain. When we neglect them, they pay the consequences. When we let them starve, they feel hunger. They cannot take action to fight for their rights. Therefore, humans have the responsibility to ensure animal rights as living beings are respected. Those who violate their rights must be punished by the law.

Do citizens have the right to protect private information from the government?	Title
Tracking information is becoming common, and without protection, it can be dangerous for people. <u>Three important reasons are: the right to privacy, freedom of speech, and the right to feel safe.</u>	Introduction: Background/ general information. Thesis statement
Sometimes we post our actions on the Internet. These private posts should not be reviewed or scrutinized by third party observers, specifically the government. The government can see our information and misinterpret it as something wrong or illegal. Our private information is and should always be ours.	Body paragraph 1 Topic sentence Supporting ideas
We also have the right to express our thoughts and feelings freely. If we want to discuss a political point, for example, the government might use the information incorrectly and take actions. Our expressions are private and should be protected from government interpretation.	Body paragraph 2 (*If needed) Topic sentence Supporting ideas
The right to feel safe is very important to us as individuals. If we choose to state an opinion or post an important event in our lives, we should be able to trust that it is not going to be used for unsafe reasons by third party observers. Our information is important to us, and it should not be violated for any reason.	Body paragraph 3 (*If needed) Topic sentence Supporting ideas
So, in my opinion, the government should not track and use private information of citizens. This invades our privacy and our freedom of speech. It also can put us in danger.	Conclusion Restatement of the thesis

MAIL	Message to a friend	MAIL	Message to the school's principal
	Hi Christian, Can you imagine??? My Math teacher took away my cellphone 'cause it rang in class I hate when these things happen !!! He will give it back to me in a week... Why are teachers so strict? They don't understand us. It's like they never were young. Arghhhh!! I'm writing a message to the school principal asap because I think this is unfair. WBS. Kisses, Meli		Dear Mr. Castro, I would like to express my disagreement with something Mr. Torres did in class yesterday morning. I was in his Math class, and by accident, my cellphone rang because I forgot to put it in silent mode. He immediately confiscated my cellphone. It was not my intention to disrupt his class, and I think I deserved a second chance before he did that. I understand teachers need to manage discipline in their classrooms, but I think Mr. Torres is too strict. He says will return my cellphone next week. I think this is unfair. I would like to ask you to talk to him, please, so he gives me the cellphone before that. I am looking forward to your kind reply. Sincerely, Melissa Arias

Expresa de manera oral su punto de vista acerca de un tema controversial previamente estudiado. Para esto, consulta fuentes confiables, selecciona y organiza la información y la utiliza para desarrollar sus ideas de una manera clara y estructurada. Por ejemplo, se dirige a una audiencia y presenta sus opiniones a partir de sus notas.

"The death penalty is not the right way to reduce murder rates."

First, the death penalty may put the life of innocent people at risk. Lawyers, judges, and juries can make mistakes, and innocent people can pay for murders they have not committed. Second, the death penalty does not stop murder from happening. Countries that use death penalty still experience high murder rates. Finally, we cannot kill someone to show people that murdering is bad.

7

Mantiene discusiones formales acerca de temas académicos que ha preparado previamente. Para esto, sigue las ideas de un tema propuesto, expresa su opinión y la contrasta con la de otros. Por ejemplo, participa en un debate sobre problemas de inmigración.

Opening statements:

A: "Ladies and gentlemen, today we're here to talk about immigration problem in the country. We believe that our country needs to close its borders to immigrants. We have many problems, and we can't solve other people's problems..."

Rebuttal:

B: "If countries around us have problems, those problems could be our own problems in the future. For that reason, we must help immigrants. Immigrants are people like you and me..."

Closing statements:

B: "In short, we are humans, and when a person needs help, it is a human act to help."

Narra de manera oral o escrita experiencias personales o historias conocidas. Para esto, brinda detalles de las situaciones, los lugares, las personas y las acciones. Por ejemplo, comparte una lección de vida con sus compañeros.

"When I was a kid I didn't study much. I listened to my teacher in class, and I didn't study for exams. I remembered the explanations, and I answered all the questions. As I advanced from elementary school to high school, it was more complicated and I needed to study, but I didn't. For this reason, I failed grade 7 and that was a very bad experience. I had to make new friends, retake the course, graduate later, and I had to feel my parents' disappointment. Since that moment, I promised I was going to study seriously, and I was going to be a good student. Failing that year taught me a very important life lesson."
